ADAMS RITE MS4043 Cylinder Guard

Finish : Zinc Plated
Shield Ring : 41mm x 11mm
Retainer Plate : 62mm x 33mm

- The MS4043 offers three forms of defence against attack on the cylinder.
- 1. Outer shield ring is bevelled to offer poor grip for twisting.
- 2. The hardened steel material combined with the bevelled shape makes obtaining a tight grip on the ring virtually impossible.
- 3. The retainer plate on the back of the door prevents the cylinder being levered out in the event of a chisel type tool being driven into the stile behind the shield ring.
